Health Care
option in Israel...*

2014

The AIM Gold Plan
Affordable Private Health Coverage

The AIM Gold Plan is not only affordable... it will save you money. Since AIM provides coverage for thousands of students visiting Israel we can offer the AIM Gold Plan at a lower cost than the deductibles on most U.S. Health Plans and HMO's. And since hospital care is authorized by your primary care physician, you can be assured that in our network of more than 200 participating senior physicians, some of the best doctors in Israel will be providing medical services for your son or daughter.

Early registration on the AIM Gold Plan is for a full year at \$495 or about \$1.30 per day!

As a parent, I understand the concerns common to parents sending their children abroad. As a physician, I know how important personalized private medical attention is to a student who

is thousands of miles away from home. For the past 25 years, we at AIM have been providing the type of quality medical care that puts the minds of parents and students at ease. Thousands of students learning in Yeshivas, Seminaries and educational institutions throughout Israel have benefited from our private care and when needed — the personal attention of the best specialists in Israel.

Recently the medical care system in the United States has undergone major changes with many health plans and HMO's no longer providing coverage for dependents abroad. The AIM Gold Plan is designed to provide complete medical coverage for students studying in Israel at a lower cost than the deductions on most U.S. Health Plans and HMO's.

Most important, is the students' feeling that an AIM physician is their family physician away from home and the concerns of parents are being eased.

We hope the student accomplishes his/her objectives in their study program. We will be available if they need us.

Lazar Fruchter, M.D., F.A.A.P., A.B.A.I.
MEDICAL DIRECTOR

Going to Israel?

It is important to have personalized PRIVATE medical attention when you are thousands of miles away from home.

However, the real value of a medical plan exists in the company behind the plan and its proven ability to respond in the time of need, day or night.

AIM takes pride in its 25 years of successful service to students, tourists and expatriates living and or learning in Israel.

Introducing the new **AIM PLATINUM Plan**. For only \$100 additional you will receive all the benefits of the popular **AIM GOLD Plan** and the most comprehensive series of benefits in today's medical services market.
